

GETOAR NISHEFCI

Full Stack Developer

Email: getoar.n1@gmail.com Phone: +383 44 170 067 Location: Podujeva, Kosovo

SUMMARY

Full Stack Developer with **3+ years of professional experience** building and maintaining modern web applications. Experienced across **React, Next.js, Angular, Node.js, TypeScript, GraphQL, REST APIs, Prisma, SQL, MongoDB, AWS**, and end-to-end testing. Strong focus on clean, scalable, maintainable solutions, product redesigns, backend integrations, role and permission systems, invoicing workflows, and document-processing automation.

EXPERIENCE

Jan 2026 – Present

Full Stack Developer

MKY Treuhandpartner GmbH — Accounting Product

Working as a full stack developer on an accounting-focused product, contributing across the frontend, backend, cloud infrastructure, and document-processing workflows.

- **Role & permission management:** Restructured and improved the application's role-management architecture to provide clearer, more maintainable access control.
- **Application redesign:** Contributed to a broad redesign of the application, improving the overall structure, usability, and consistency of the product.
- **Invoice generation:** Implemented an invoice generator and invoice setup workflows, supporting configurable and reliable invoice creation.
- **OCR & document processing:** Improved invoice OCR workflows to extract and process relevant invoice data using **AWS Textract**, increasing automation of data entry.
- **Full stack development:** Built and maintained features using **Angular, Node.js, REST APIs, MongoDB, and AWS**, working across frontend and backend services.
- **Backend & integrations:** Developed and integrated REST-based services and backend functionality to support accounting workflows and application features.

Jul 2023 – Dec 2025

Software Developer

Pabau Software, Kosovo

Worked extensively with **React, Next.js, GraphQL, Prisma, Node.js, MySQL, and PostgreSQL**, building scalable frontend and backend solutions for a SaaS platform.

- **Frontend:** Built and optimized reusable components, custom hooks, and helper functions, improving maintainability and speeding up feature delivery.
- Developed and maintained product features, resolved bugs, and delivered engineering tickets efficiently.
- Implemented **bridge APIs and middleware interceptors** to streamline integrations and improve system performance.
- Wrote **end-to-end tests with Playwright**, helping ensure reliable releases and high product quality.
- Participated in **code reviews**, promoting clean code and engineering best practices.
- Mentored interns, supporting their technical growth and integration into the development team.

TECHNICAL SKILLS

Frontend	React, Next.js, Angular, JavaScript, TypeScript, HTML, CSS, LESS, Tailwind
Backend	Node.js, REST APIs, GraphQL
Databases	MySQL, PostgreSQL, MongoDB, Prisma
Cloud & AI/OCR	AWS, AWS Textract
Testing	Playwright, Jest
Tools	Git

EDUCATION

2021 — Bachelor of Computer Science

UBT College – Higher Education Institution, Prishtine, Kosovo

Computer Science with a focus on **software engineering, algorithms, database systems, mathematics, and application development**, combining theoretical knowledge with practical software development skills.

LANGUAGES

Albanian: Native **English:** Professional working proficiency
